

## How can I set up my AVerMedia webcam on ClickShare

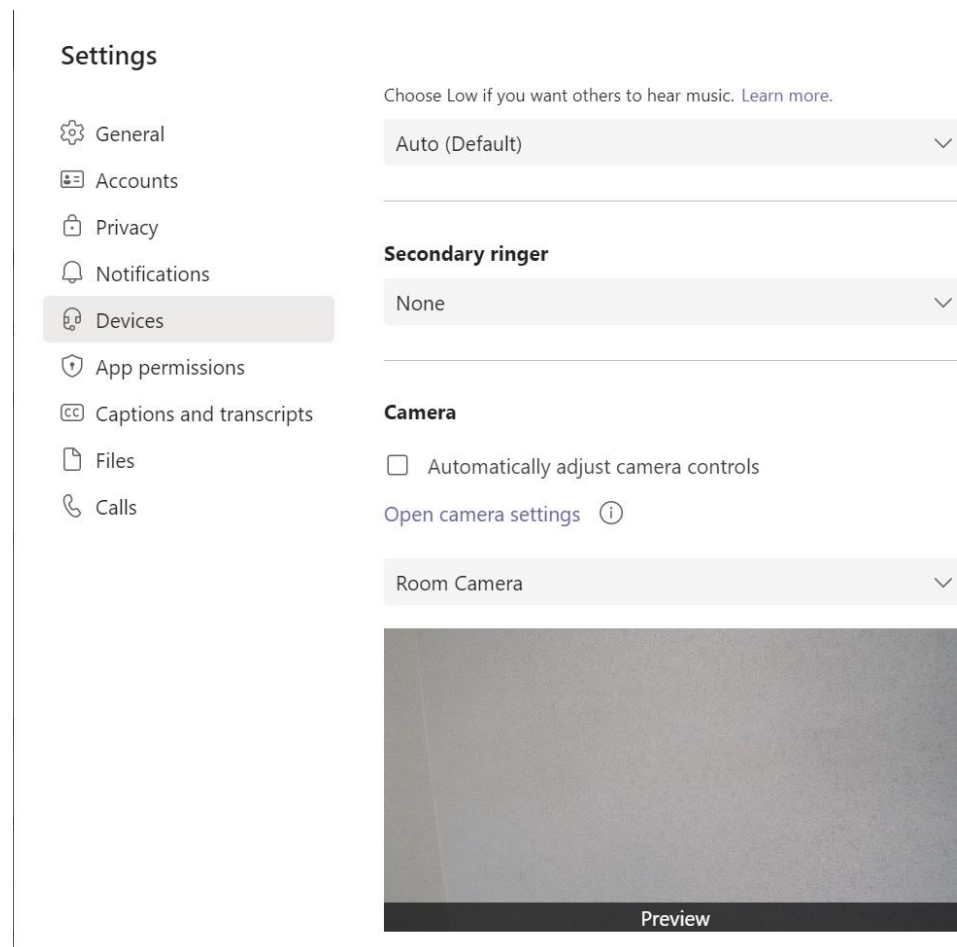

**STEP 1.** Make sure your AVerMedia webcam on ClickShare is installed before you begin.

**STEP 2.** Taking Microsoft Teams for example, Click the Profile icon on the top-right of the window, and then select Settings, as shown below:

**STEP 3.** In the Settings window click on Devices, then scroll down to the “Camera” section. Click on the drop-down menu and select your webcam.

Once, you have selected **Room Camera** you should be able to see its video feed in the preview window. Remember to check that your privacy is open, otherwise the preview image will be blank.

And you're all ready to host or join a meeting!
